Next Week in Year 2
Week Beginning 15th July 2024

What we will be doing in school	How you can help at home
<u>Maths – Mathematical Board Games</u> Next week the children will be using their knowledge from across the year to create their own board games to pass on to the next group of Year Two's! They will have the opportunity to explore existing games to generate ideas, then spend time making their own! 	Have a go playing some games that involve counting, for example snakes and ladders! Have a discussion and if they could change anything about the game, what would they change? How would they improve it? https://math4childrenplus.com/subtraction-of-numbers-up-to-20-crocodile-board-game/
<u>English – Creating our own story</u> This week in English children will continue to work as authors! They will continue to write their own stories thinking of their setting, characters and deciding what the beginning, middle and end of the story would look like! We will then spend some time writing up our stories, bringing together all of our learning from across the year.	 the clown at the farm. Can you write a silly story using these prompts? Think about what will happen at each part of your story before writing it out, how can you make sure your story is interesting for the reader?
<u>PSHE</u> This week the children will be having a discussion in preparation for their transition to Year Three, thinking about the feelings associated with change. They will be drawing on their knowledge of emotions and what they can look like on the outside.	Have a discussion with your child about their upcoming move and the changes that will be happening. Can they reflect on their time at the Infants and draw a picture of their favourite memory? Think about when you started at the Infants and how you felt then.

Have a great weekend! The Year 2 Team
